HOW TO PLAY

HOW TO PLAY

The following lines can contribute to wins. A win can occur on any or all of these lines.

Total bet must be divided equally between each active payline. Therefore, all total bet amounts are not available.

When mechanical buttons are available, they can be used to select the number of lines to play and / or start the game by selecting the amount to play per line.

WIN LINES

25 numbered win lines are shown on a 5-reel grid. The lines are numbered 1 through 25. Lines 1-11 are horizontal, zigzag, or diagonal. Lines 12-25 are various zigzag and diagonal patterns.

How to BONUS GAME

Scattered BONUS symbols on reels 1, 3 and 5 start the Party Bonus

which features classic VILLAGE PEOPLE hits like 'Y.M.C.A.' and 'In the Navy,' 'Macho Man'

First the player selects 1 of 6 Village People to win a credit award of 1-5 times their total bet

Next, the player begins to pick from the array of records on the screen. Records reveal credit awards of 1-5 times their total bet, a multiplier, "Pick a Macho Man," or a party pooper. Any record that reveals a credit award of 1-5 plus the total value of all Village People.

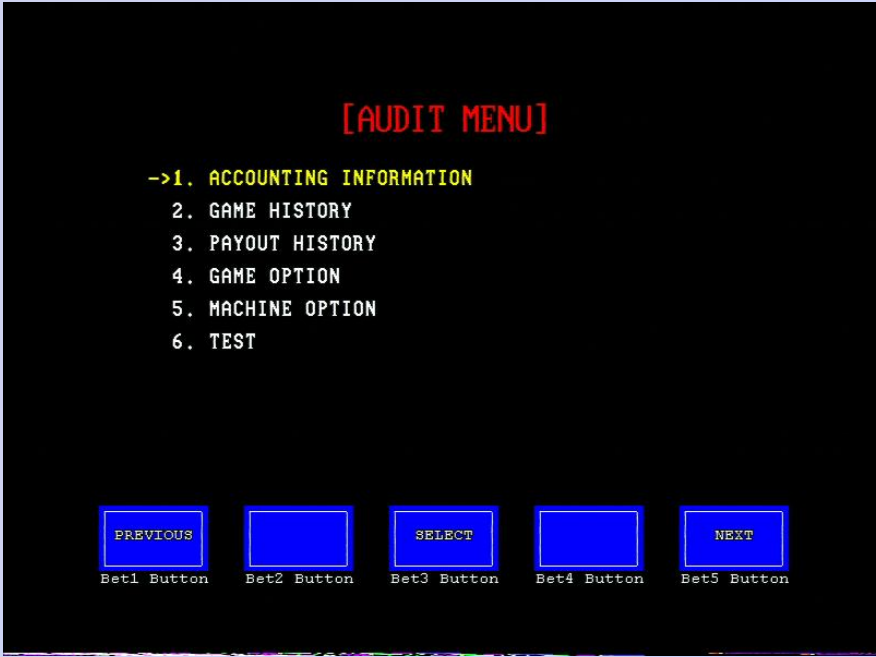

If a pooper is revealed prior to selecting a record credit award, the player is given a second chance with a 50/50 shot at picking a Party Saver that will send the pooper packing! One of the Village People also has their own party saver!

The record picking continues until a Party Pooper is revealed, ending the bonus.

Picking all six Village People in the bonus awards an additional 200x the player's total bet for some truly 'macho' winnings!
